

INDUSTRIAL DESIGN MINOR

The Industrial Design minor provides students with a foundation in design process, visualization, prototyping, and materials exploration. Students build skills in human-centered design, while engaging with innovation in product development. The minor complements majors in Art, Engineering, Design, and related fields, offering both conceptual and applied design experiences.

The Industrial Design Minor requires a total of 21 credits from the following:

Code	Title	Credits
Core Courses		
ART 171 or ART 172	Foundation Design: Two-Dimensional Foundation Design: Three-Dimensional	3
DES 173	Foundation Design: Digital Art and Design	3
ENGR 131	Introduction to Engineering Design	3
IND 100	Introduction to Industrial Design	3
IND 200	Materials: Materials and Fabrication	3
Choose six credits of electives from the following:		6
IND 300	Materials: Design and Application	
IND 310	Industrial Design Studio 1	
IND 320	Product Usability and Ergonomics	
Total Credits		21
